

Dear Wunderman Thompson Team,

I am excited to apply for the Senior Application Consultant position at Wunderman Thompson MAP. I am confident that my technical skills and experience in sales leadership make me a strong candidate for the role.

I have extensive experience building sales processes and administering CRM systems paired with technical expertise in software development. I also have interpersonal skills to be a positive member of your team. I'm looking for the right position that will give me the chance to move to Spain and I think I could add a lot of value to your team.

Best,
Chris Campbell
